

Changes Semi-Permanent Hair Color Ingredients

- ❑ **Aqua (Purified, De-ionized Water)**
This is normal water that has been filtered and treated to remove metallic ions and other impurities. At the same time, this process kills any existing micro-organisms. It is used as a base liquid for this formula and also to keep moisture balance in the hair shaft
- ❑ **Hydroxyethyl Cellulose**
Derived from plant cellulose, this is used as a thickener
- ❑ **Oleic Acid**
An organic acid derived from palm nut, this is an emollient and moisturizer
- ❑ **Lauramide DEA**
Derived from coconut, this is a conditioner and thickener
- ❑ **Ethoxydiglycol**
This is used as a solubilizer
- ❑ **Aminomethyl Propanol**
A neutralizer
- ❑ **Parfum**
Natural peach fragrance
- ❑ **Pentasodium Pentatate**
A food grade anti-oxidant
- ❑ **Chondrus Crispus (Carrageenan) Seaweed Extract**
This Irish seaweed extract is used as a natural conditioner
- ❑ **Wheat Amino Acids**
Used to add natural strength to the hair
- ❑ **Bixa Orellano-Annatto**
A natural food colorant
- ❑ **Red Beet**
A natural food colorant
- ❑ **Various Other Pigments**
Semi-permanent hair colors

Grey Coverage:

Changes is not principally designed to cover grey hair and yet in many cases it can effectively disguise those first few grey hairs and blend them away. The darker colors tend to cover grey better than the lighter ones.
