

Tints of Nature – Conditioner Ingredients

- ❑ **Aqua (Purified, De-ionized Water)**
This is normal water that has been filtered and treated to remove metallic ions and other impurities. At the same time, this process kills any existing micro-organisms
- ❑ **Cetyl Alcohol**
This is not an alcohol, but an emulsifying wax derived from coconut oil
- ❑ **Stearyl Alcohol**
This is not an alcohol, but a very gentle cleansing agent derived from coconut oil. Also acts as an emulsifier
- ❑ **Propylene Glycol**
Derived from mineral sources, this acts as a conditioner and humectant.
For further information about this ingredient, please see separate sheet
- ❑ **Stearalkonium Chloride**
A conditioner derived from vegetable fatty acids. Also helps to reduce static electricity
- ❑ **Cetrimonium Chloride**
An emulsifier and conditioner, as well as a preservative
- ❑ **Hydrolysed Wheat Protein**
Naturally derived from wheat, this conditions and moisturizes the hair
- ❑ **Phenoxyethanol**
A mild preservative
- ❑ **Potassium Sorbate**
This ingredient prevents the growth of fungi, yeasts and moulds
- ❑ **Tocopherol**
A naturally derived anti-oxidant – Vitamin E
- ❑ **PEG-100 Stearate**
A naturally derived cleansing agent – coconut
- ❑ **Chondrus Crispus (Carrageenan) Extract**
Irish seaweed extract, a natural conditioner
- ❑ **Certified Organic Aloe Barbadensis (Aloe Vera) Extract**
A botanical extract of the Aloe plant. Acts here as a conditioner, moisturizer and anti-inflammatory agent
- ❑ **Certified Organic Athemis Nobilis (Chamomile) Extract**
A botanical extract of the Chamomile plant. Used here for its anti-oxidant and anti-inflammatory properties
